

Physical Science with Mrs. Baker

Content will include the following:

- Energy, Motion, and Forces
- Density
- Matter, Changes, and Elements
- Chemical Reactions and Materials
- Dissection (Continuation of Human Body Systems)

I use a variety of methods to give students information such as

- Short Video Clips
- Videos
- Powerpoints
- Text – Prentice Hall “Focus on Physical Science”
- Handouts
- Lab activities

Students are to be prepared at all times!

Materials

- A composition book and a folder for note-taking and handouts given
- Pens, pencils, colored pencils, and paper

Homework

- Will not be a nightly requirement but look for study guides, vocabulary, or labs to be completed and light reading.

Testing

- Occasional quizzes may be given to cover a handout or chapter section.
- Study guides will be graded and handed back before a test. Students should review the information a few nights prior to a test.

Grading

- All assignments will be totaled for each trimester. I will let the students know the point value of each assignment and test.
