Summer Math for Incoming 7th Graders

July 26th– July 28th

9:00-12:00

All incoming 7th graders are required to complete a summer math packet. Join Mr. Gonzalez for 3 days of MATH. During this 3-day course we will go over and complete the summer math packet. Students will review math concepts as well as get a start on 7th grade math concepts. Students will gain valuable study skills and have a chance to experience ALEKS, the online supplementary math program used in the upper grades at SAS. Students will also have the opportunity to work on a STEM project that will incorporate 7th grade math concepts and give students a chance to explore mathematics in new ways. Seating is limited, so sign up today!

$120 Snack and materials provided
